KOLDLOK®

KoldLok® 2 Post Rack Grommet

Part Number
10123

2 Post Rack Grommet
Part No. 10123

Applications

Designed to seal the opening at the bottom of a 2 post rack to prevent by pass airflow and reduce the amount of contamination/particulates entering the difficult to clean area.

Features

- Split design allows for retrofit installation, even if cabling exists in the rectangular area

- Designed to work with variations in rack material thicknesses

- No cutting, modifying or tools necessary for installation

- Fits standard 19" 2 post racks with an opening of 17.5" x 3.5" (444.5 x 88.9 mm)

- RoHS Compliant

Benefits

- Reduces bypass airflow by sealing off the rectangular area in the 2 post cabinet

- Prevents dust and debris from getting trapped in a difficult to access area, promoting cleanliness in the Data Center

Specifications

- Dimensions: 3.75 x 19.75 inches / 95.25 x 501.5 mm

- Usable Cable Area: 34.5 sq inches (2 x 17.25 inches) / 223.4 sq cm (5.1 x 43.8 cm)

Materials

- Mounting extrusion: Rigid PVC, Black Fire Rating UL94 V-0

- End caps: ABS, Black Fire Rating UL94 V-0

- Brush: Polypropylene
