HotLok® 2RU, 2X MAC MINI, PANEL KIT

Part Number HL2RU-2XMM

Applications

The HotLok 2RU, 2X Mac Mini, Panel Kit is a 2RU 19" EIA rack mount panel assembly featuring slide out trays designed to accept two M4 or M4 Pro Mac Minis, (Mac Minis not included).
The individual toolless slide out trays are removable allowing easy access to the Mac Mini for power on/off button resets or swap outs.
The Mac Minis forward mounted position directly faces the cold aisle, providing operational indicator viewing and access to the USB-C and headphone jack.
The Panel Kit has intake ports so the Mac Mini cooling fans can draw conditioned air directly from the cold aisle.
The HotLok 2RU, 2X Mac Mini, Panel Kit also features optional wireform cable retention.

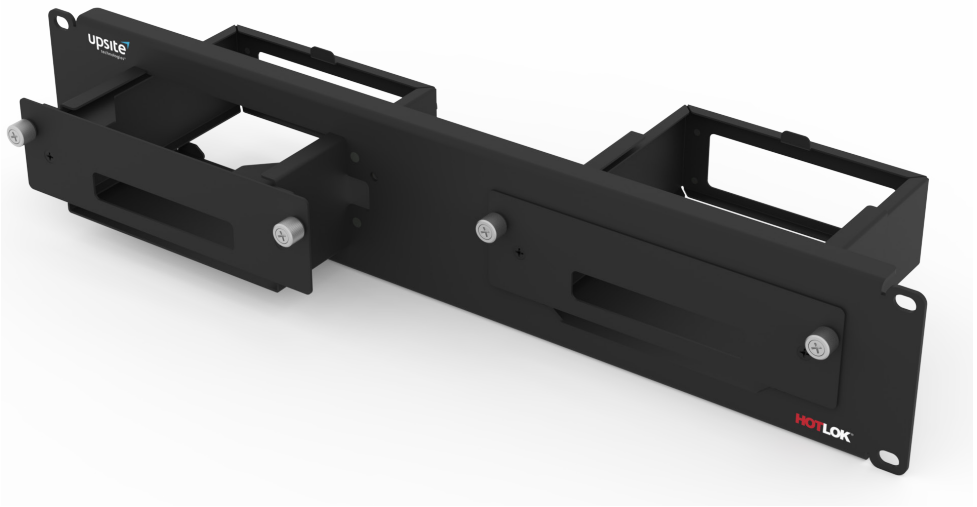

Features

- Twin slide-out trays designed to accept two M4 or M4 Pro Mac Minis (Mac Minis not included).
- Toolless slide-out trays provide easy access to the Mac Mini for power on/off button resets or swap outs.
- Operational indicator viewing window with front ports access.
- Cold aisle conditioned air directly available to the fan intakes.
- Optional wireform cable retention.

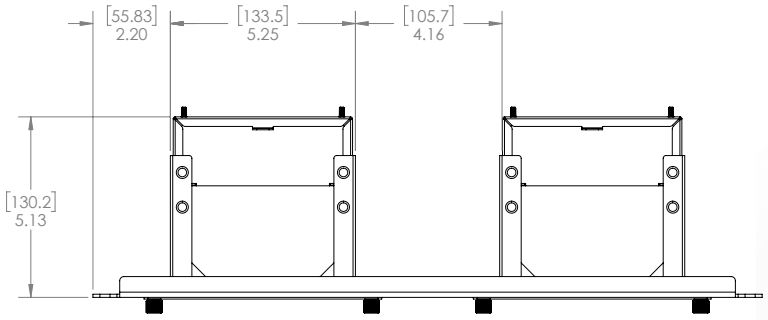

Benefits

- Provides the ability to rack mount two Mac Minis.
- Offers easy access to rack mounted Mac Minis. No need to remove panel assembly.
- Visual confirmation that the Mac Mini is operational from the front of the rack.
- Cooling airflow pattern is compatable with a cold and hot aisle configuration, supports optimum cooling effectivness and efficiency.
- Cable retention keeps wires organized and prevents accidental disconnect.
