HotLok® 4RU, 5X MAC MINI, 1X PASSTHRU, PANEL KIT

Part Number HL4RU-510

Applications

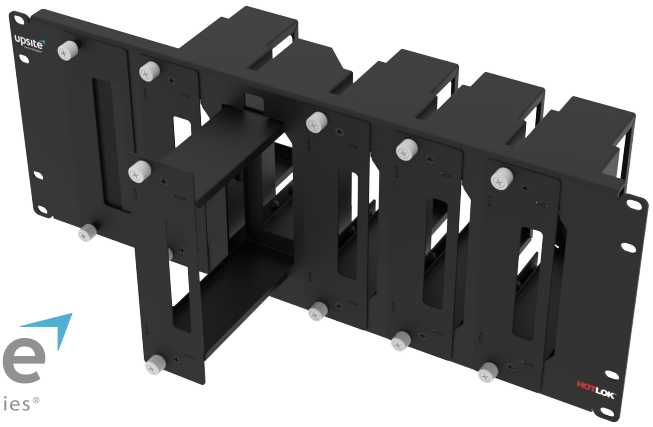

The HotLok 4RU, 5X Mac Mini, Panel Kit is a 4RU 19" EIA rack mount panel assembly featuring slide out trays designed to accept up to (6) M4 or M4 Pro Mac Minis, (Mac Minis not included).
Multiple configurations are available. The HL4RU-510 Panel Kit comes with (5) slide-out trays, (1) cable pass thru.
The individual slide out trays can be removed without tools allowing easy access to the Mac Mini for power on/off button resets or swap outs.
The Mac Minis forward mounted position directly faces the cold aisle, providing operational indicator viewing and access to the USB-C receptical and headphone jack.
The Panel Kit has intake ports so the Mac Mini cooling fans can draw conditioned air directly from the cold aisle.
The highly configurable 4RU Panel Kit can be provided with cable pass thru and/or blanking panels for unpopulated spaces.
The HotLok 4RU, 5X Mac Mini, Panel Kit also features optional wireform cable retention.

Features

- Individual slide-out trays designed to accept up to (6) M4 or (6) M4 Pro Mac Minis (Mac Minis not included).
- Toolless slide-out trays provide easy access to the Mac Mini for power on/off button resets or swap outs.
- Operational indicator viewing window with access to the front ports.
- Cold aisle conditioned air directly available to the fan intakes.
