HotLok® Mac Mini Pass Thru Panel 5-Pack

Part Number HLMM-050

Applications

The HLMM-050 HotLok Mac Mini Pass Thru Panel 5-Pack provides a convenient solution for customers needing cable pass through panels for their HotLok Mac Mini Panel Kits.

The Pass Thru Panel Kit comes with (5) individual pass through panels.

The panel features sealing brushes and permanently attached panel screws which offer tool free attachment of the panel to the Mac Mini Panel Kits.

Use the pass through panels to route cables to the front of the Mac Minis and prevent unwanted cold/hot air mixing created by openings vacated by the removal of the Mac Mini slide out trays.

Once installed, the individual pass through panels can be removed without tools allowing easy reuse of the slot for Mac Minis.

Features

- (5) Individual blanking panels
- Brushed opening for cables to pass through
- Toolless attachment design
- Provides secure airflow sealing solution for vacated openings in HotLok Panel Kits.
- Steel construction with black powdercoat

Benefits

- Designed specifically for HotLok Mac Mini Panel Kits.
- Provides easy attachment/removal.
- Convenient cabling routing.
- Prevents cold/hot air mixing.
- Supports optimum cooling effectiveness and efficiency.
